

Partner Program

LEN CONSULTING LLC supports users of Software AG's flagship products, Adabas and Natural, through system development and training services. We are the developers of the **ZZUtils** package – over a dozen utilities for the Natural developer, Natural Administrator, and ADABAS DBA.

ZZUtils v2.0 supports MVS users. We are planning support of VSE, VM/CMS, BS2000, Unix, and Windows.

Become a member of our Partner Program.

We are looking for partners to assist in the porting of **ZZUtils** to other operating system environments, and the development and testing of new releases. Of special interest are users with VM/CMS and BS2000.

Get ZZUtils for free.

In exchange for access to your development environment and assistance with platform-specific features, you will receive a copy of **ZZUtils** at no charge, and you will continue to receive free updates and enhancements as long as you maintain your *Partner* status.

Sign-up at partners@ZZUtils.com.

If you are interested in becoming a Partner, contact partners@ZZUtils.com to see if you qualify. We'll be happy to discuss details or send more information.

See us on the web at www.ZZUtils.com.

ZZUtils is a trademark of LEN CONSULTING LLC.
Natural and ADABAS are registered trademarks of Software AG.
VM/CMS is a product of IBM Corporation.
BS2000 is a product of Fujitsu Siemens.
